Summary

Motivated full-stack developer with hands-on experience building responsive and dynamic web applications using React.js, Java, and Spring Boot. Proven through freelance client work and personal projects. Passionate about creating user-centric applications and contributing to impactful development projects.

Technical Skills

- **Languages:** Java, JavaScript, HTML, CSS
- **Frameworks:** Spring Boot, React, Tailwind, Redux Toolkit
- **Databases:** MySQL, Firebase, Firestore, REST API, JWT Authentication
- **Tools:** IntelliJ, VS Code, Git & Github, Postman, NPM, Vercel, Railway
- **OS:** Windows, Linux

Professional Experience

Freelance Web Developer

Oct 2024 – Present

Pixel Pro Multimedia

- Delivered web development projects for clients on a freelance basis through Pixel Pro Multimedia.
- Built responsive, dynamic websites using React.js, JavaScript, HTML5, and CSS3.
- Worked directly with clients to understand requirements and deliver production-ready solutions.

Web Development Intern

June 2025 – Sep 2025

Confiable Business

- Developed the website focusing on responsive design and user-friendly interface.
- Worked with React.js, JavaScript, HTML5, CSS3 to build dynamic and mobile-optimized pages.
- Collaborated with the team to improve UI consistency and enhance website performance.
- Gained hands-on experience in frontend development, version control (Git), and debugging techniques.

Projects

CricSense — IPL Prediction & Live Score Platform

cricsense.in

- Full-stack IPL prediction and live score platform built with React, Spring Boot, MySQL, Firebase, Cricbuzz API, Gemini, and Resend — deployed on Vercel and Railway.
- Features real-time ball-by-ball delivery, a 6-factor AI prediction engine, Gemini-generated narratives, and a playoff qualification tracker.

IRCTC - Train Booking System

- Full-stack train booking application built with React, Spring Boot, and MySQL — featuring real-time live railway data fetched via RapidAPI.
- Integrated a weather scheduler that automatically checks departure station weather at scheduled train times to assist travel planning.
- Features include user registration, train search, ticket booking, cancellation, and live train status updates.

NetflixGPT

- A React-based movie recommendation system that mimics Netflix's UI and suggests movies based on user preferences.
- Built using React, JavaScript, and local JSON data to generate recommendations dynamically, with focus on component reusability and responsive design.

Education

- **MCA – Master of Computer Applications**, Chandigarh Group of Colleges, Punjab Technical University — 2025 — **8.54 CGPA**
- **B.Sc – Bachelor of Science**, Dyal Singh College, Kurukshetra University — 2022 — **83.30%**

Interpersonal Skills

Creative and Innovative — Hardworking and Responsible — Good Managerial Skills — Excellent Team Player
